HOW DOES CLASSPOINT HELP?

01

Turn slides into quizzes

With a click of a button, you can turn normal PPT slides into interactive quizzes. During slide show, when you run the quiz questions, all your students will be able to respond with their devices. Student responses are collected/displayed in real time.

<https://www.classpoint.io/turn-slides-into-quizzes/>

Step 1

Design your PowerPoint slide

Step 2

Add interactive question button

The image shows a laptop screen displaying a PowerPoint presentation with the ClassPoint interface. The main slide is titled "Which of the following is/are **NOT** mammals?" and features four animal images: a platypus, a bat, a pangolin, and a hummingbird. The options are A. Platypus, B. Bat, C. Pangolin, and D. Hummingbird. A blue button labeled "Multiple Choice" is positioned below the options. The ClassPoint interface includes a top navigation bar with tabs for File, Home, Insert, Design, Transitions, Animations, Slide Show, Review, and View. The "View" tab is active, showing various interactive tools like Pen, Whiteboard Backgrounds, Multiple Choice, Word Cloud, Short Answer, Slide Drawing, and Image Upload. A right-hand panel titled "Interactive Quiz" is open, showing settings for the question type (Multiple Choice), number of choices (4), and play options. The bottom status bar indicates "Slide 4 of 14" and "English (Singapore)".
