

The background is a solid blue color with white line-art illustrations. On the left, a graduation cap is shown above a hand holding a document. In the center, a rocket is positioned inside a circular structure resembling a globe or a large container, with a ladder leading up to it. On the right, another graduation cap is shown above a hand holding a document. The overall theme is education and achievement.

**Pedagogically-Focused
Integrated Ecosystem**

It's Your System, Not Ours

Integrating All Your Educational Demands into
One Pedagogically-Focused Integrated
Ecosystem

Pedagogically-Focused Differentiated Teaching Platform

Experiential Mobile Learning Platform

Marketplace for Educational Content

Pedagogically – Focused Differentiated Teaching Platform

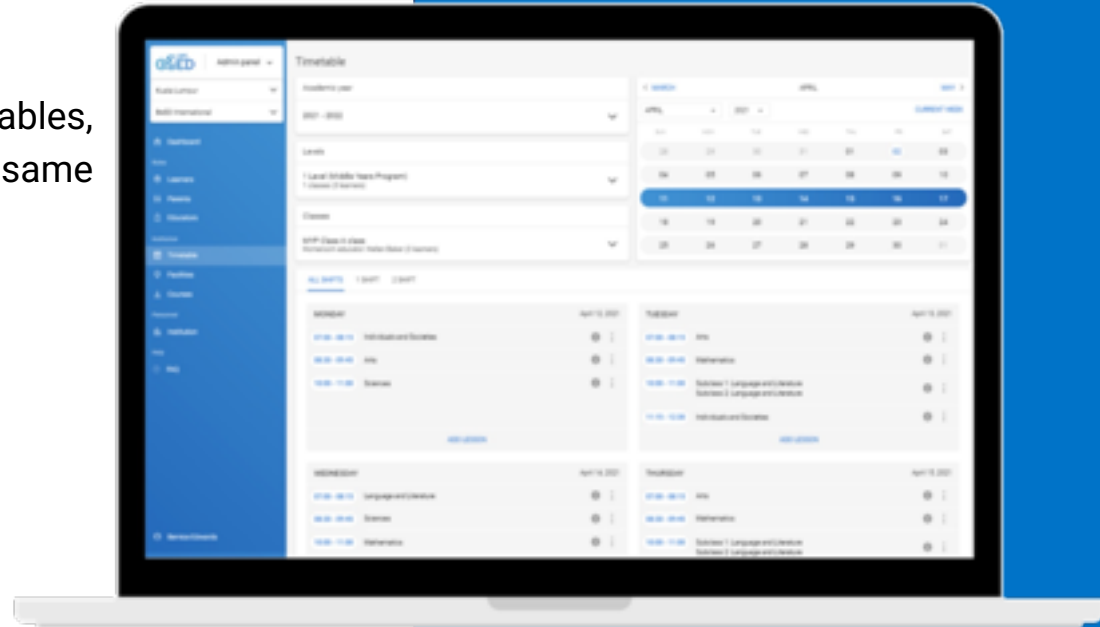

LMS
BEED

Sustainability through Digitalisation of Administrative Needs

- Manage multiple institutions' timetables, classes, facilities and users all in the same account.

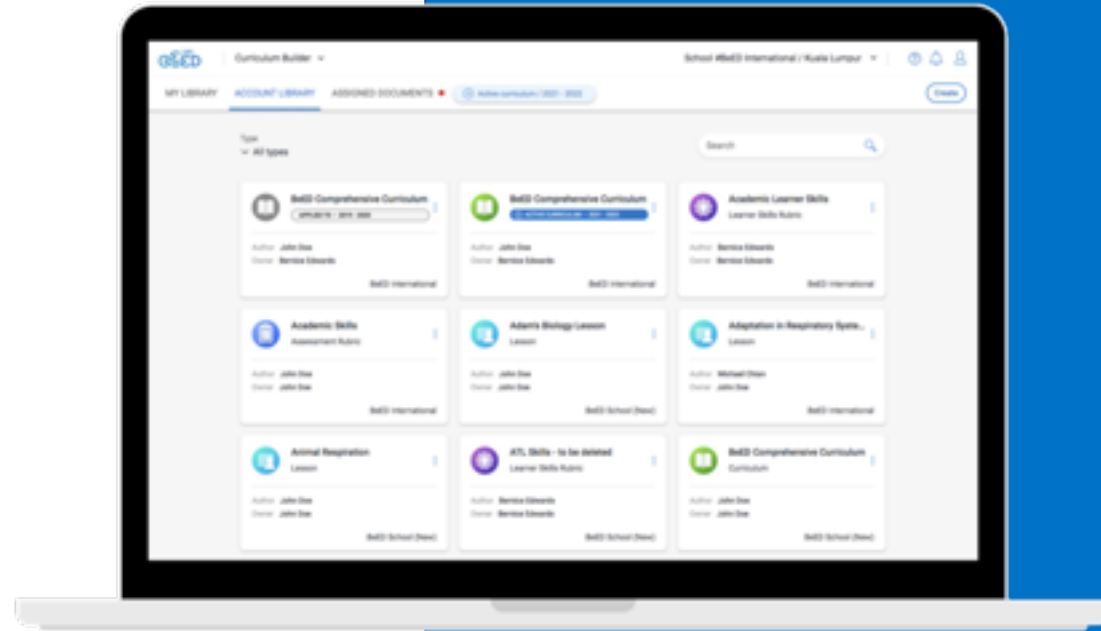

Multiple Roles in One Platform

- Allow Educators and other staff to be Learners as well for professional development with our 'Switch Role' feature

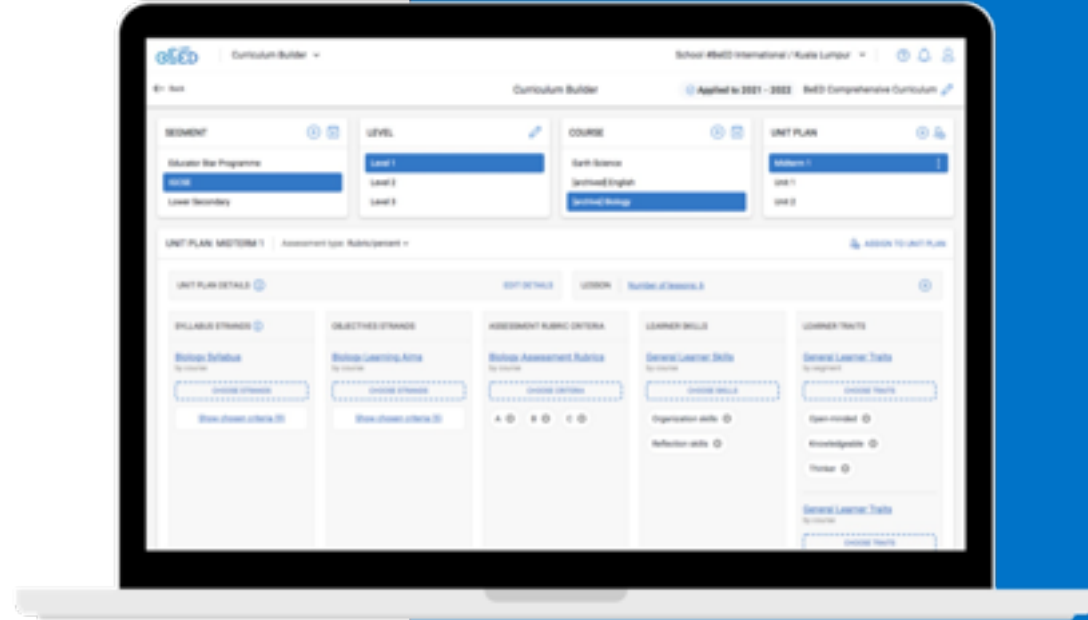

Customisable & Collaborative Curriculum Builder

- Create and control multiple curricula on the same system.
- Augment with school-based educational requirements.
- Open visibility of platform and shared resources allow for the delivery of best practices for learning across individual and network schools.

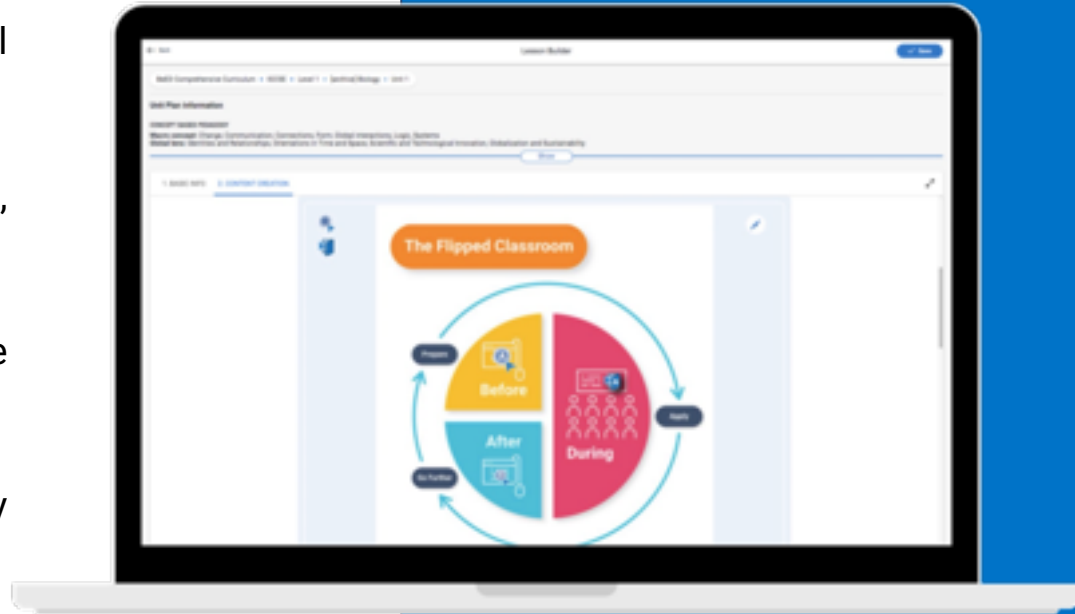

Adaptable Building Block System

- Syllabus Builder
- Objectives Builder
- Learner Skills/Traits Rubrics Builder
- Assessment Rubrics Builder
- Course Builder
- Multiple Curriculum Management
- Personal Libraries for Educators
- Shared Account Library for Collaboration

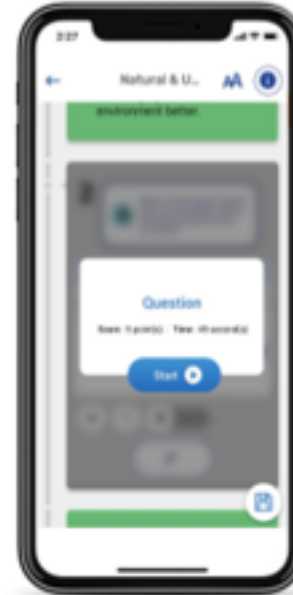

Flexible Lesson Builder

- Cater to multiple pedagogical methodologies.
- Rich media capabilities (photos, audio, videos & documents).
- Create and share MCQ questions into the Question Bank for collaborative work.
- Standardise content and lesson delivery across individual and network schools.

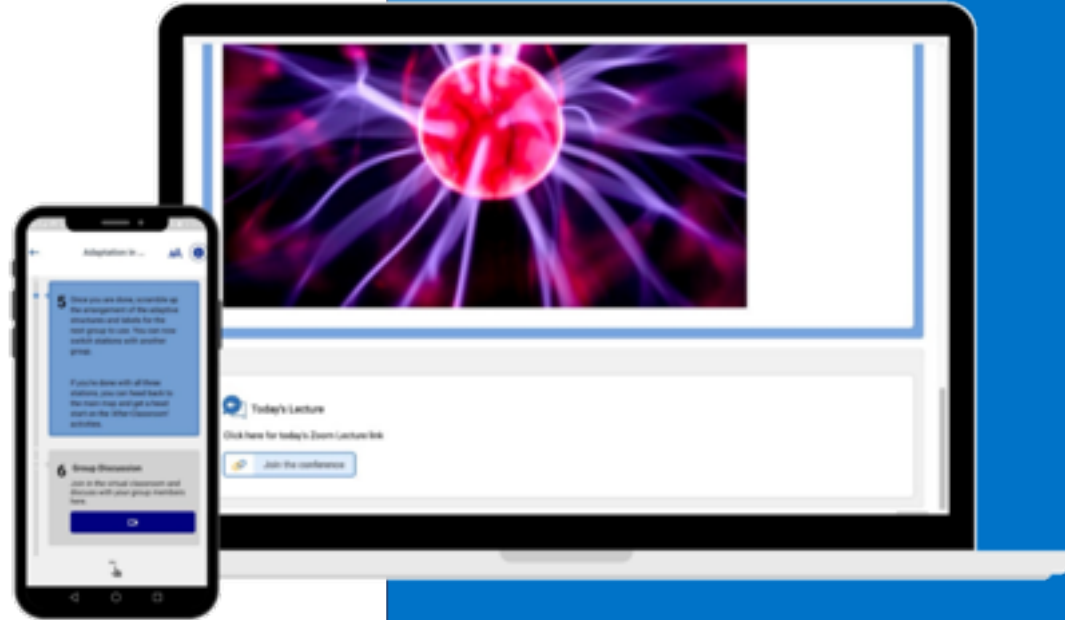

Multiple Choice Questions

- Timer option is available for questions and lessons.
- Suitable for examination or assessment purposes.
- Automarking for MCQ saves time for grading.

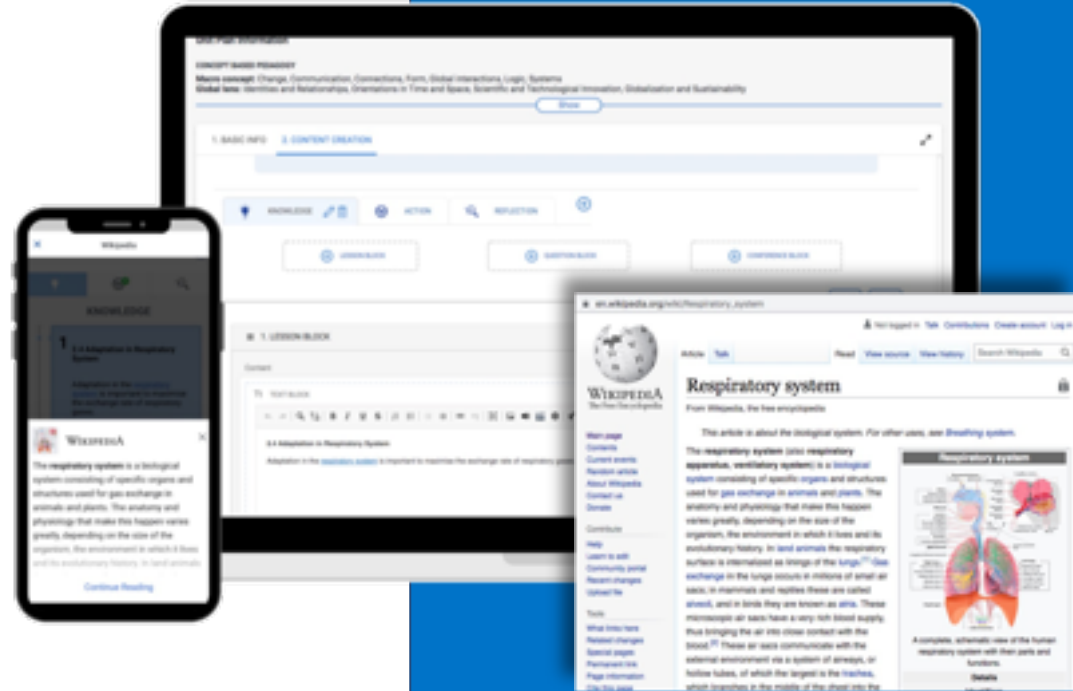

Integrated Conference Block

- Integrate virtual conferences directly into your content for a seamless remote learning experience.
- Facilitate blended learning, small group discussions and private one-to-one tutoring.

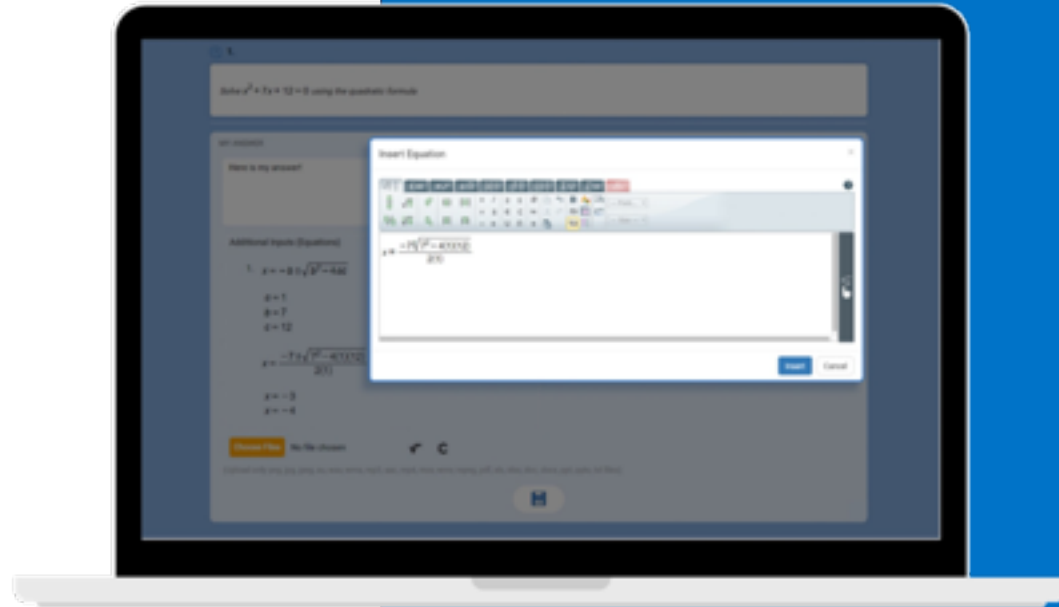

Wikipedia Preview

- Directly access millions of articles through the integrated Wikipedia Preview for a smooth teaching and learning experience.
- Highlight and search for specific articles quickly and seamlessly, all from within the BeED LMS.

Math & Science Equation Builder*

- Easily type or draw out equations to simplify the process of writing mathematical or scientific equations.
- Available for both Educators and Learners during the lesson creation and assignment stages, through the web as well as the BeED mobile app itself.

Scholastic* (Coming Soon)

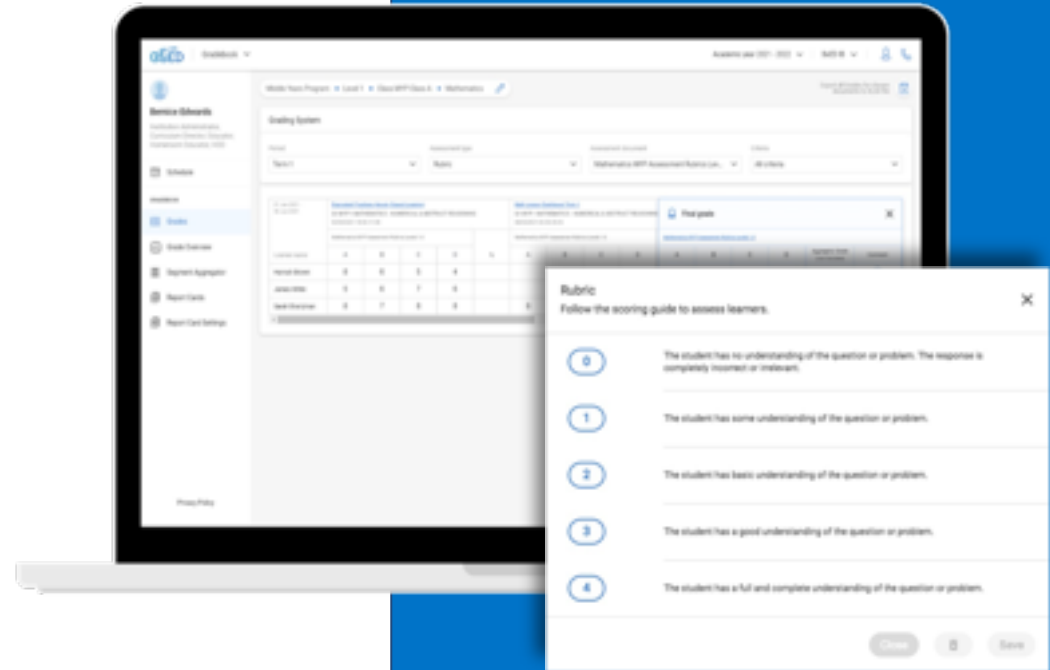

- Dive into extensive Scholastic educational resources to create engaging and interactive learning content
- Give Educators and Learners full access to Scholastic Go! and Scienceflix for an exciting explorative experience.

**Premium feature*

Assessment Analytics At Your Fingertips

- Supports multiple forms of assessment such as Percentage, Rubric and Personalised Feedback for a comprehensive Learner Evaluation.

Personalised Feedback

- Keep a digital record of Learners' answers and feedback while reusing your lessons again and again.
- Guide your learners on their learning progress through insightful notes and advice.

11/02 07:55:2019

Mark correct

Love can overcome even the most difficult of circumstances, that was the main idea of the play

1 11/02 07:55:2019

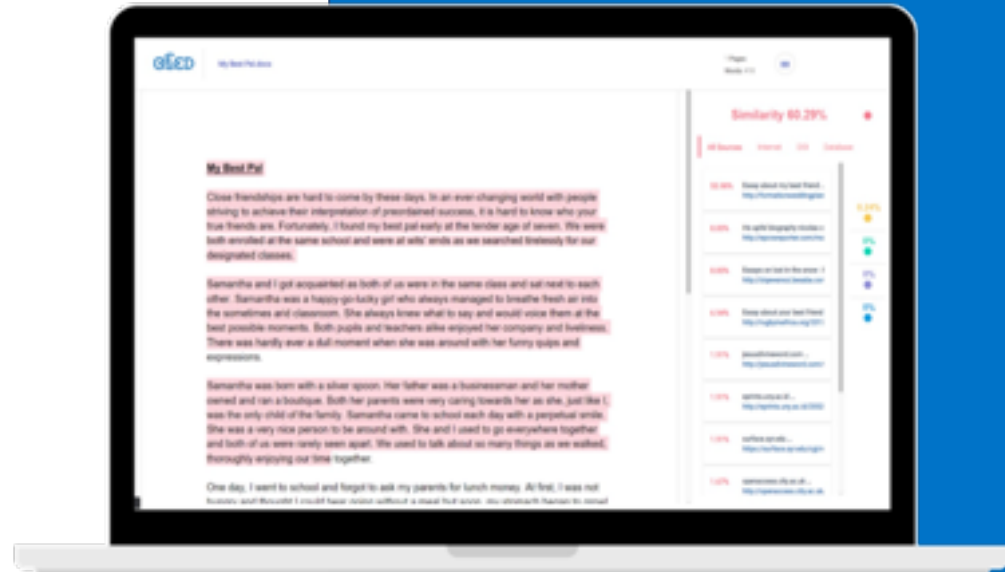

Annotation*

- Provide precise and focused feedback to learners by annotating directly on their submissions.
- Allows you to highlight specific sections and suggest edits for multiple file formats - text, images and videos.
- Customise individualized feedback to learners and encourage deeper understanding of learning content.

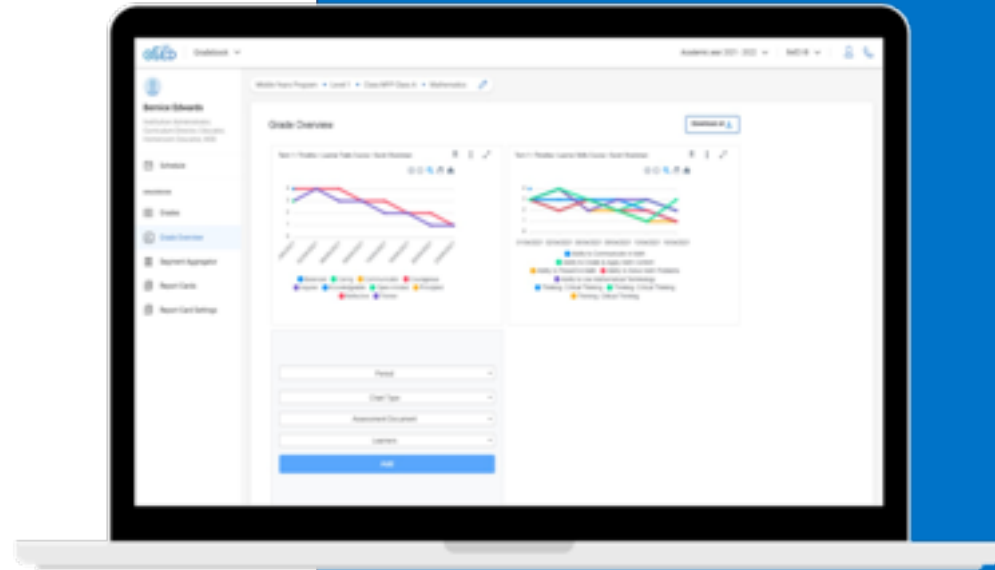

Plagiarism Checker*

- Automatically checks all learner documents for plagiarism once toggled on.
- Maintain a high standard of academic integrity by leveraging against a database of over 130 trillion online articles, journals, books, magazines, encyclopedias and websites.
- Detect the percentage of original versus paraphrased and/or copied work and assess learner submissions more holistically .

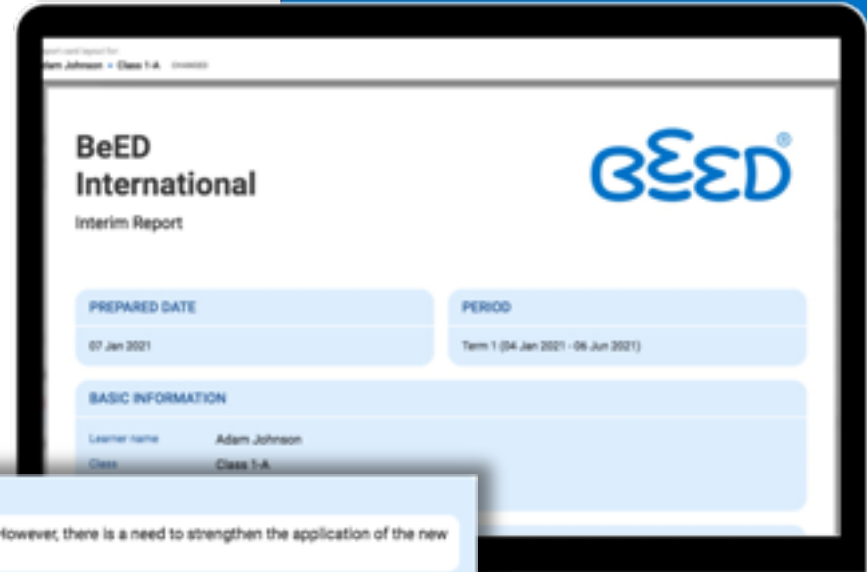

Grade Overview At A Glance

- Visualize your class grades and performance instantly.
- Generate accurate chart depictions for grade performance throughout the term or academic year.
- Review learners' progress and refine lesson structures to fine-tune academic goals.

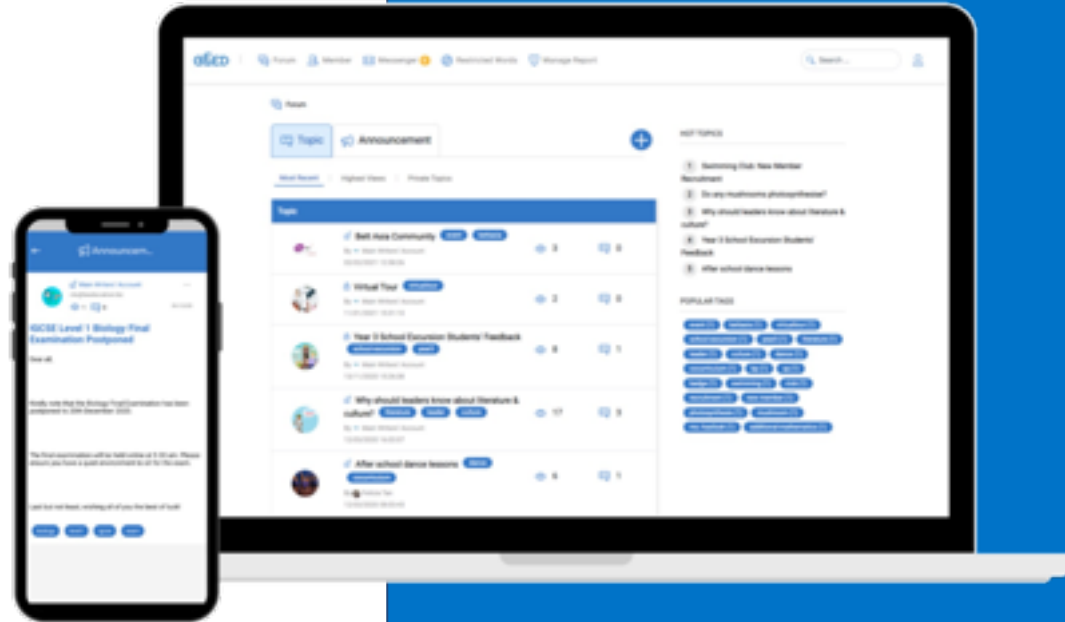

Learner's Report Card

- Auto-generate report cards based on Learners' final grades, complete with personalised Educator comments.
- Get live updates in the report card whenever new grades are given or edited.

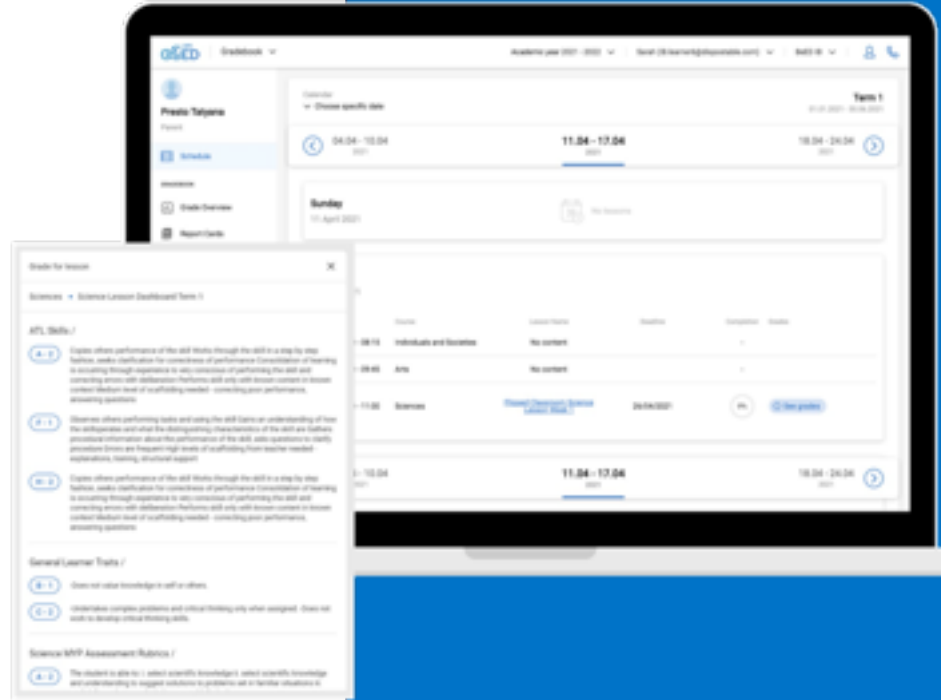

Connect: Forum, Messenger & Announcements

- Supports school announcements, as well as class and community discussions.
- Post topics, ask questions or participate in conversations with other Learners and Educators.

Greater Parental Transparency

- Grant parents the visibility to monitor their children’s academic progress and social growth throughout their time in school.
- Keep parents updated on the latest school events through Announcements and Forums in Connect (coming soon).

**Mobile Learning
is the Future**

JOURNEYS
GΞED

Researched-Backed Mobile Learning

Various studies have shown the surprising benefits of mLearning over other conventional forms of learning.

70%

of learners claim that mobile learning enhances their Experience (eLogic Learning).

71%

of millennial learners reported that they prefer mobile learning over other traditional methods (Docebo)

90%

of K-12 learners claim they have benefitted from doing research through Mlearning (Statista)

5x

greater knowledge retention rate for Elearning courses done through Mlearning (findstack)

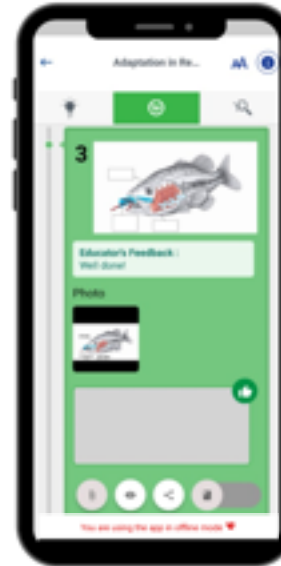

Learn Beyond Classroom Walls

Offline Mobility

- Access lessons and assessments without internet access.
- Communicate with peers using Bluetooth Chat.

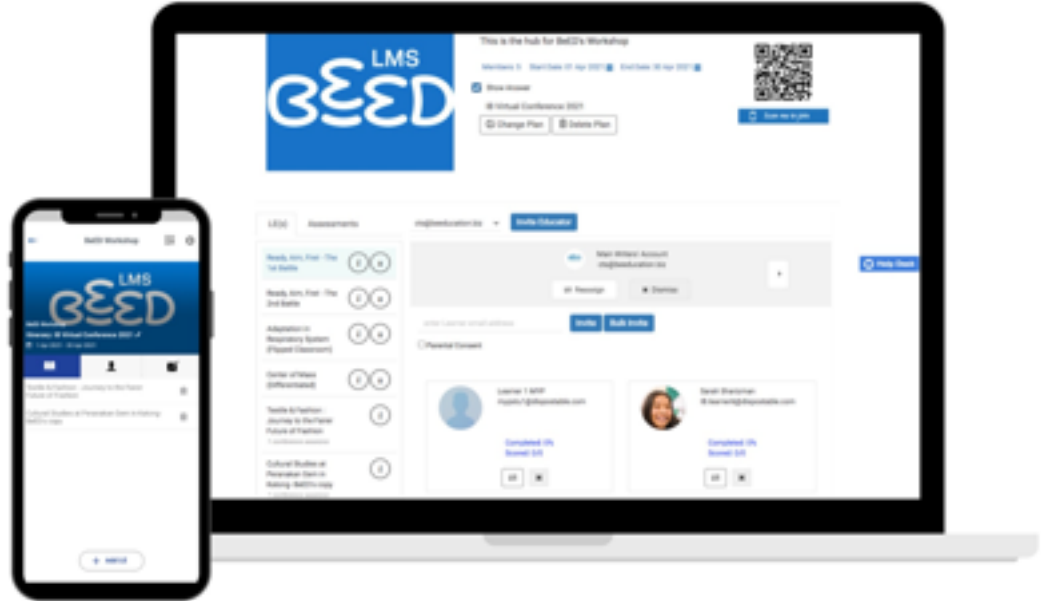

Media-Rich Learning Experiences

- Use rich media like video and audio to capture experiences beyond the classroom.

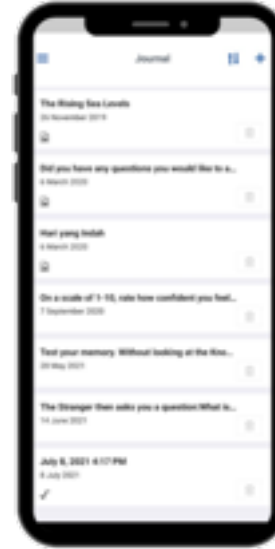

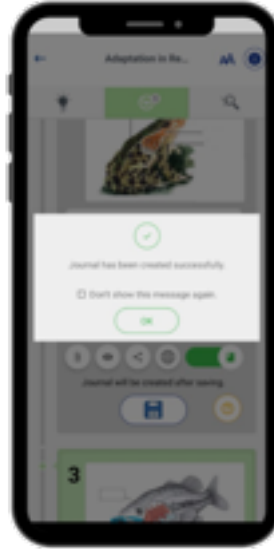

Hubs

- Set up and manage extracurricular workshops and school excursions for your learners, complete with one-step QR code sign-up.
- Track learning progress with the Lesson Completion and Points Tracker.
- Export Learners' responses from workshops and school excursions to parents as evidence of learning.

Journal

- Personal learning diary to document important points and learning progress.
- Supports rich media with text, audio, video, photos and equation builder.

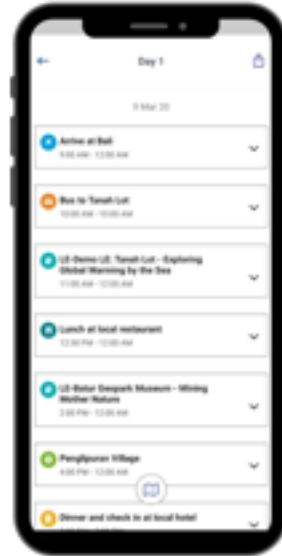

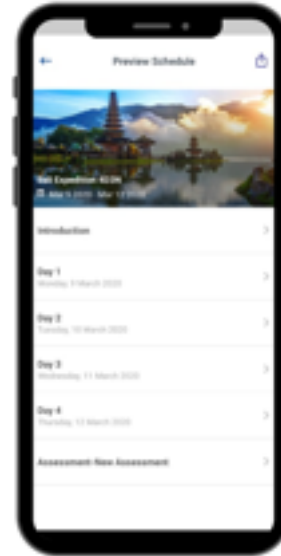

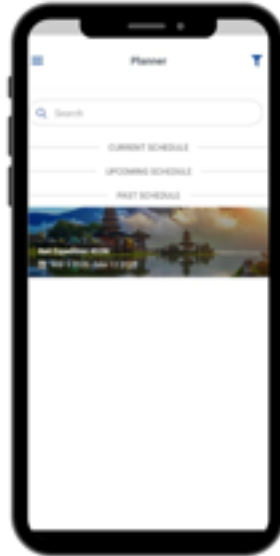

School Excursions Tailored to Your Needs

One-stop Travel Concierge

- Full travel services for physical and virtual tours

Versatile Itinerary Planner

- Create comprehensive travel plans, including time and distance travelled.
- Doubles as a lesson scheduler to link individual mobile lessons to a specific time and date.

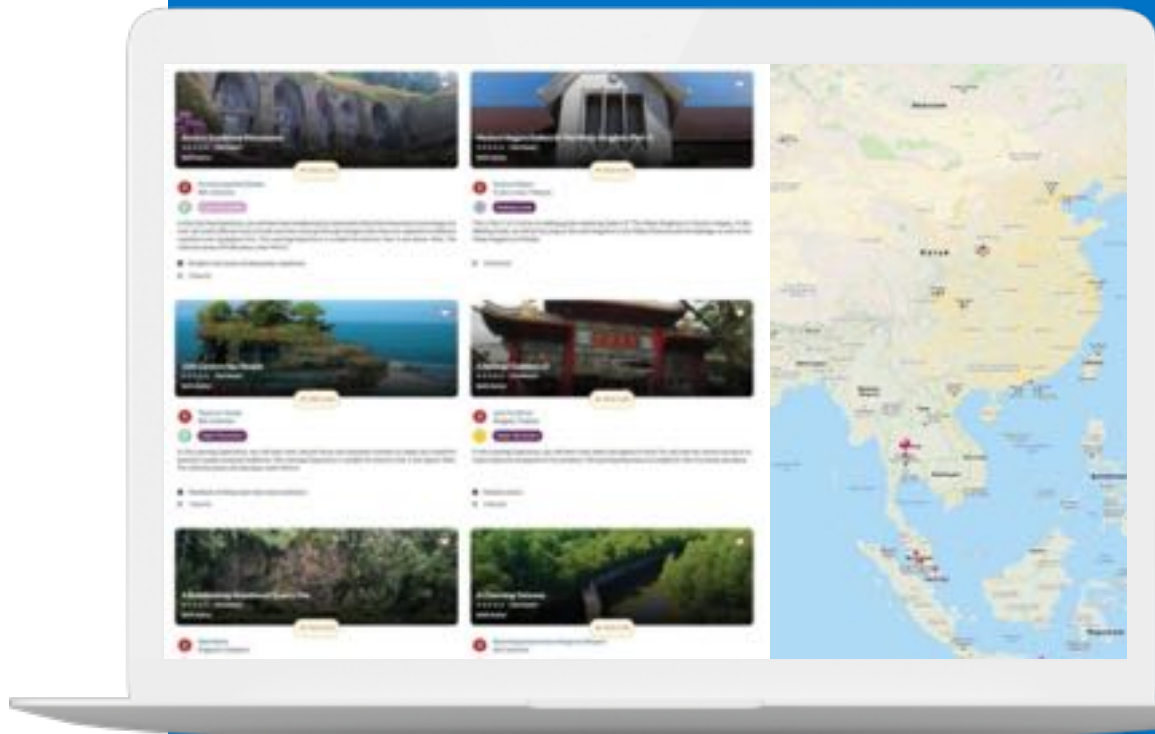

Marketplace For Education
