Education Perfect

You are the light that guides my pedagogy
You are the key that unlocks potential
You are the rock on which programs are built and
You are the wind that shapes young minds.
Thank you.

Michael Graham, Matraville Sports High School

I love the feedback I get from my students
about how much they enjoy EP! Because they
progress at their pace, they are much more in control
of their own learning. The support I get as a teacher
wanting to get the most out of EP is great.
Amazing fun for teachers too!

Catherine Walkear, Melbourne Girls' College

Alex Burke

CEO, Education Perfect

As Australian and New Zealand schools move into the second half of the year, we reflect on the last 6 months and how it's not something any of us has experienced before. The EP COVID-19 journey started around the time of Chinese New Year in late January as we started to see schools disrupted through closure in China. We reached out to support schools with a free access period and by March this had impacted all of the schools we work with across the world.

We saw first hand how difficult it was to adjust to distance learning and it was an amazing effort across the board to keep some sort of continuity. For EP, we ended up supporting an additional 500,000 students across 50+ countries. We are very proud to have supported the teaching community and made such a positive impact.

As we look to the remainder of this year and 2021 you will see continual improvements in our product and service offering. EP for School has always been FREE for teachers, as we understand that there is a need for openness and collaboration in education, especially to start closing the education equity gap. Our new EP Studio provides teachers with the opportunity to share their lessons with colleagues on a national, or even global stage.

Onwards and upwards,
Alex

The Benefits of EP

13+ years learning from our customers

Full school solution

35,000+ curriculum aligned lessons

User-centric approach is part of the EP DNA

Full suite of learning materials across all core subjects

Users get value from day 1 

 Intuitive platform

Consistent experience with learning data in one place

Ability to easily customise content

Premium support for our users

Loyal customers

A reliable platform built on AWS infrastructure

<30mins response time

Provide high quality feedback

Provides customers assurity that data is secure

Experienced teachers provide professional development

Evangelize our product

System usage is uninterrupted 

 In-depth data, metrics and reporting

Adaptable and customisable platform 

Easily assess user engagement

Effective delivery of all learning

Monitor and track student learning progression

Suits all users' needs 

The Benefits of EP

The Key EP Features ✨

library

EP Library contains a rich bank of 35,000+ curriculum aligned lessons across a range of subjects.

studio

EP Studio provides intuitive authoring tools to create engaging and effective lessons for your students.

assessments

EP Assessment provides a range of assessment for learning tools to power measurable learning growth.

insights

EP Insights provides a deep understanding of learning progression at a student, class and cohort level.
